

Hello.

Understand that LPFM's are going to take precedence over current FM translator service.

We in Hampton Roads VA would lose our CA radio station, which we listen too because of this situation.

K-LOVE is a valuable religious radio station in our community.

Our community would sorely miss K-LOVE although it would be hard to describe the intangible benefits lost unless one understands Jesus.

I believe this radio station helps people to hear God's word in song.

It is beneficial because by accepting God's free offer of salvation one is a better citizen by following the Bible and obeying God's commands.

How shall those whom K-LOVE reaches hear about God and enjoy songs that praise our Creator if K-LOVE is gone?

I just think it would be nice to have K-LOVE and encourage you to help K-LOVE remain or find an acceptable alternative that provides the current capabilities as found in the translator services.

Thank you for your time...
